"Mr. Burton criticises in the sharpest manner our method of making waterway improvements. During the ten years that he was chairman of the rivers and harbors committee his power over waterway legislation was almost supreme, and he is more responsible for the present system than any other man. If it is bad, which ideny, then the principal blame rests on him. While he was chairman some of the projects he now attacks so bitterly, notably the Trinity river, were inaugurated. Why did he not prevent it; or at least oppose it, in the halls of Congress? The record shows he was a strong champion of the Trinity at that time."

ATTACKED AT RIVERDALE PRICE OF GASOLINE

Output of Crude Oil in 1915 Breaks All the Records.

Geological Survey Reports Increase in Stock Is Conclusive Rebuttal

The Secretary of the Interior has made public the preliminary figures of the report of the geological survey on the production of crude petroleum, rom which gasoline is made. The Secretary indicates an increase of about 2,000,000 barrels over last year's output, which, with a total production of about 290,000,000 barrels, was a record

"The present year began with a surplus of petroleum in field storage," said the report, "so that production of crude oil was not pushed. Under these conditions the small increase in marketed production was significant. Of the total yield of the wells the past year about 8 per cent remains in field storage, and added to this are the stocks held in storage by the pipe line com-panies, a reserve estimated by the survey as 50,000,000 barrels greater than a year

as 50,000,000 barrels greater than a year ago.

"The supply in the United States is not unlimited, but the decline in the country's output of crude oil has not yet set in. The increase in stocks is in itself a fairly conclusive "ebuttal of any price-boosting plea of present shortage. Furthermore, the better market for crude oil, which characterized the closing months of the year, has already somewhat stimulated drilling activity, which may contribute to next year's production."

The value of the shares held by the estate of Charles Pratt has increased from \$35,600,000 to \$89,-700,000. The 42,400 shares held by C. W. With the exception of the stock which has been set aside by Mr. Rockefeller for various purposes, it is believed that the holdings of the big Standard Oil stockholders are intact to a large extent, for it is the opinion in well informed quarters that the insiders have sold only the pipe lines." CHICAGO, December 30 .- Wire tap pers, alleged to be operating in a suburb of Chicago, swindled Vincent Baer, a wealthy stockman of Midland, Tex., out of \$20,000 on a horse race, according to reports to the police today.

The swindlers, it was said, met Baer in Kansas City, Mo., where some wagers were made on the races and later their acquaintance was renewed in Cincinnati. The men who got his money. Baer charges, are Edward A.

Baer and his two companions came to Chicago Christmas day, It was reported, the wires were "tapped" and Baer was told that every bet had been won. He claims to have turned over \$20,000 to the two men, and all three left for Cin cinnati, whence they were to go to Lexington, Ky., to collect their winnings.
